LOTTERY BILL (SB7) UPDATE

Sen. Paul Sanford's lottery bill (SB7) was carried over in the Senate Tourism & Marketing Committee and will likely not pass during this Special Session. That's the good news. The bad news is that the reason it was carried over was that the casino proponents do not want a lottery bill that does not include legalizing casinos.

It is still important that State Senators and House Members be contacted over and over again between now and the 2016 Regular Session of the Alabama Legislature that begins in February of next year!

Keep emailing, calling, writing and making personal contact with your state legislators and make it clear that you want them to oppose ALL pro-gambling bills (and procedural votes that might advance such bills) now and in the future!

If you need to know your House Member and Senator's name and contact information, please [click here](#).
